PARIS, THURSDAY MORNING, DEC. 9, 1824.

A Probate Court will be holden at the Probate Office in this Village, on Tuesday next.

The electors of President and Vice-President for this State met at the State House in Portland on Tuesday of last week, and chose Hon. THOMAS FILLDROWN, of Winthrep, their President, and Guones Evans, Esq. of Gardiner, Secretary. On Wednesday, they gave their yotes for President and Vice-President of the U. S.—which were:

For President, John Quincy Adams, 9; For Vice-President, John C. Calhoon, 9.

Three duplicate lists of the votes were made ont, signed by the President and Secretary, to be directed to the President of the Senate of the U.S .-- one to be sent by mail, one by a special messenger, and one deposited in the District Clerk's Office, which is to be sent for in case the others should be lost or miscarried.

GEORGE EVANS, Esq. of Gardiner, was appointed, by the electors, to carry the votes of this State to Washington.

The following letter from the Judges of the Supreme Court in this State, in answer to one from the Governor, requiring their opinion, whether "Division Inspectors and Quarter-Musters, Brigade Majors and Quarter-Masters. and Adjutants and Quarter-Masters of Regiments and Battalions," are within the meaning of the Constitution, wherein it provides, that Major and Brigadier Generals, and the Commandants of Regiments and Battalions are authorised to have been heard from since the electoral colleges met appoint their several Staff Officers; and whether such Staff Officers, so appointed, hold their wifices after the promotion, resignation, er removal of the officer so appointing-we consider very sublime, and the sentiments truly excellent. very important to our militia. It is copied from the Appendix to the second volume of Green-Teaf's lieports:

"In answer to the questions propounded by you, we have the honor to state, that we are of opinion, Division Inspectors, Division Quartermasters, Brigade Majors, Brigade Quartermasters, and Adjutants and Quartermasters of Regiments and Battalions, are Staff Officers, within the meaning of the 3d sec. 7th ort, of the Constitution of this State. By analogy to the sixth section of the ninth article of the Constitution, as well as from general principles, we are satis-fied, that with regard to that class of Staff Officers, denominated " Aids" the tenure of their office is, du ring the pleasure of the officer for the time being, in whom the power of appointment to said office is vest-ed by the Constitution. And this pleasure, by a wellknown and established miltary usage, the existence of which is recognised by the Legislature, in the statute of March 21, 1821, chapter 184, section 2, is conzidered as determined by the promotion, resignation, pointment was made. Not are we aware of any legal principle, or statute provision, prescribing a different tenure of office from that of during pleasure, to other classes of staff officers, appointed and commissioned in the same manner with Aids. Such is the tenure of office of the highest Staff Officer, the Adjutant General, not expressly by the statute regulating the Militia, but by the general provision of the Constitution. But In these cases, the promotion, resignation, or removal of the officer, making such appointments, does not operate to render vacant the several staff offices, with the power of appointing to which, he was rested. Nor is it believed to be in accordance with military usage, to dismiss such Staff Officers without any alleged misconduct on their part, or without hearing or trial before a court of inquiry, or court-martial.

FOR THE OBSERVER.

ADDRESS TO MY PIPE. Come friendly I ipe and pull away Sadness-tand let not sorrow stay. Thy cheering influence oft abounds, While passing through earth's tiresome rounds. When gloomy thoughts distract my mind, Ninch cornfort from thy fumes I find; Like Jobit's smoke, 'tis thine to chase The evil spirits from the place. To he u pair, and anxious cares would vex me sore, By tribuly lipe will crive them out of deer; And dark despending thoughts no place can find, Is turns them out, and gives them to the wind. The breath is but a pull, though void of speech, A monitor thou art, and much dost teach, Thy cloudy curling fumes in silence say, " Lite like my smoke, will quickly pass away." Thou sonther of care and solace of wee, Much contert at times thy breathings bestow.
